Overview: *These are those things (tools, organizations, policies, etc…) that I wish to see instantiated. There are some items here that **I** am working to engender. Some items here may already exist; in this case, I am either ignornant of the item (in which case, I would appreciate being pointed to it) or believe that the current instantiation of the entity is insufficient for my needs and or desires (for this latter case, I will labor to make it clear what I understand of the state of progress towards the wish in question and how I believe this state is lacking).*

1 Analyses

- An ethnohistorical / psychological analysis of masculinity in the regions not covered by David D. Gilmore in *Manhood In The Making: Cultural Concepts Of Masculinity*.

2 Tools

- Parse `.qmd` and `.md` files and attach to the first instance of certain nouns a link to Wikipedia (bonus: as a `pre-commit` hook).
- Parse `.qmd` and `.md` files for links and automatically save them to the Internet Archive / Wayback Machine (bonus: as a `pre-commit` hook).
- Takes a MLA or APA formatted citation and generates a CSL file to replicate the structure.
- Groups markdown citations and footnotes together in `.qmd` and `.md` files.
- Embeds forecast distribution medians and intervals as links in `.qmd` and `.md` files.

3 Visualizations

- (working on) An interactive map of reprogenetics.
- A map on paleontology like the one for different fields of mathematics.
